Honey Metric Standard

Score: /6

Each bee fly's to a flower and back to the hive, (1 trip).
Each trip produces 0.02 grams of honey.
How many trips must bees make to fill each jar?
Write down how you calculated each one.
Below are 6 examples from the game.

Name:_____

0.9 kg	0.84 kg	0.48 kg	0.36 kg	0.72 kg	1 kg
= _____ g	= _____ g	= _____ g	= _____ g	= _____ g	= _____ g
